Livresse wall lamp

"Use your favorite book as a lampshade"

Have you ever loved a book passionately? Has it made you dream, laugh, cry or taught you something special? In other words, has it somehow lit you up deep inside? Livresse suggests you bring this book out of hiding into the light. It is to become a lamp.

Light up your interior for real.

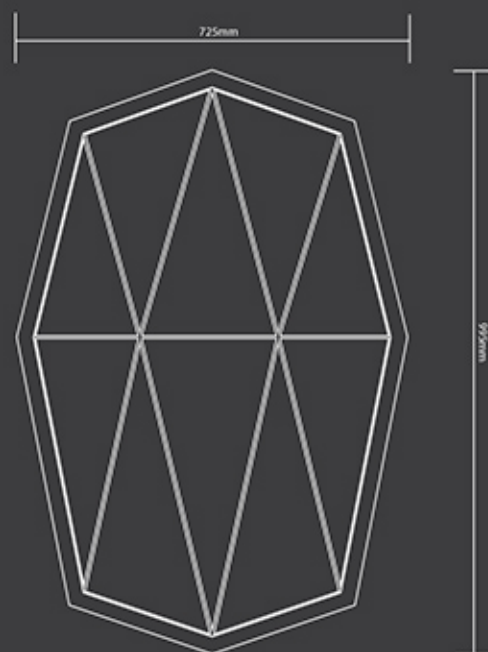

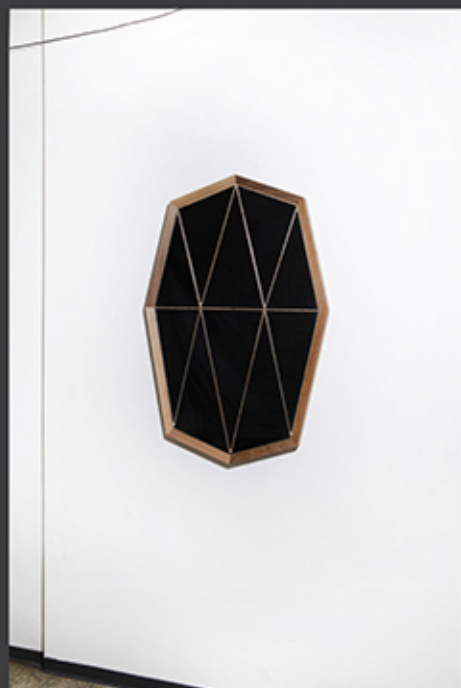

Packaging

«Walnut groove» Mirror

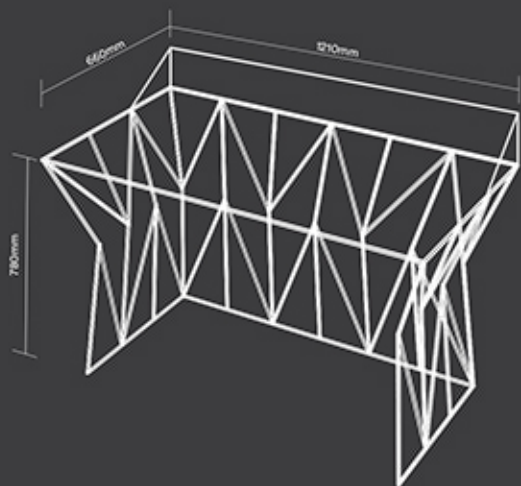

10 mirrors mounted on a Walnut veneer board, solid Walnut frame

«Nom de bleu!» desk

"Inspired by the graphic style of Navajo motifs and the metal gates of his Swiss homeland, designer Boris Dennler has created the Nom de bleu! Desk.

This elegant, lightweight piece features a light but robust base composed of 10 mm, painted metallic tubes that have been welded together by the experts at Berger Métal. The top is composed of walnut veneer, while the drawer and backside are solid walnut.

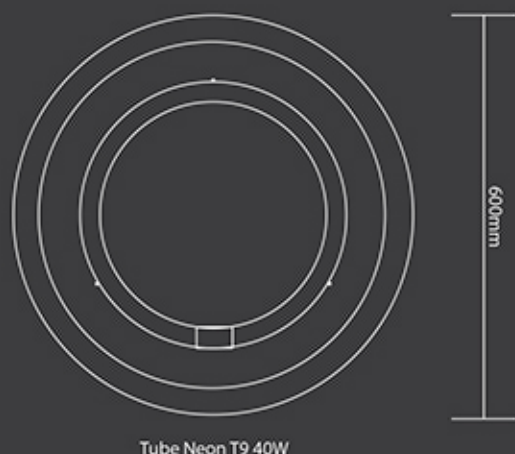

O ABYSS wall lamp

O ABYSS use the standard principle of two parallel mirrors to imprison the light.

The effect is a kind of infinity tube on the center of the mirror.

Like a door to an other world in the continuum space-time.

Radiator chair

Swiss designer Boris Dennler cleverly upcycles found radiators to make each of his unique Radiator Chairs. Every one is bent by hand and welded in Switzerland, and each piece is signed and numbered by the designer.

Colors on demand, various dimensions.
